

Welcome to the Asian Ecology Section (AES) of the Ecological Society of America (ESA)

(<https://www.esa.org/asian/>).

The AES was established in 1994 and our objectives are:

- To foster and facilitate communication and collaborations among ecologists who work with ecosystems on the Asian continent.
- To promote, advance, and coordinate ecological research and dissemination in Asia.
- To act as a liaison agency among researchers, societies, and other groups interested in all branches of ecology in Asia.

## The Asian Ecology Section (AES) of the Ecological Society of America (ESA) "AES-ESA Talks"

### What

Soil microbes as a driver of global carbon cycle

### Who

Prof. Hojeong Kang

### When

8:30 PM, 11/15/2023, US Eastern Time  
9:30 AM, 11/16/2023, Beijing Time

### Where

Join from PC, Mac, Linux, iOS or Android: <https://auburn.zoom.us/j/84828475229>

### Speaker's Biography

Dr. Hojeong Kang holds the position of Full Professor at the School of Civil and Environmental Engineering, Yonsei University, Seoul, Korea. His primary research area centers on the impacts of global climate change on microbial ecology, particularly in relation to GHGs emissions. Dr. Kang earned his Bachelor's and Master's degrees from Seoul National University before completing his Ph.D. at the University of Wales, Bangor, UK. His career trajectory includes postdoctoral work at the University of Wisconsin, Madison, USA, and a professorship at Ewha Womans University, Seoul, Korea. Dr. Kang has authored and co-authored more than 140 papers in international journals, including four publications in Nature research journals. Currently, he also holds the role of an Associate Editor for Ecological Engineering.
