## The Tree Coroners

To save the West's forests, scientists first must learn how trees die

# Commute Sheds as a Regional Water Management Decision Tool

## Which Way Does the Money Flow?

Measuring How Big City Water Supplies Fuel  
Small Town Economies

A city's water supply can fuel the economies of nearby towns that buy their water. I measure which way the money flows, and who should pay.

**Interview your partner, then explain what they do in the form of a headline or a tweet.**
