

## E. LUCY BRAUN AWARD

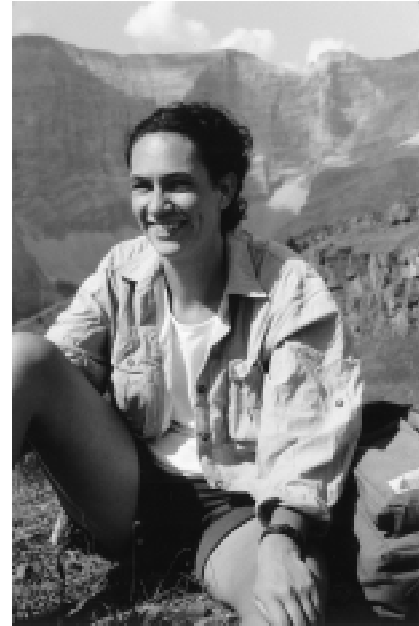

E. Lucy Braun was an eminent plant ecologist and the first woman president of the Ecological Society of America. Besides describing and mapping the deciduous forest regions of eastern North America, Lucy Braun served as a dedicated teacher and role model to her students. To honor her, this award is presented to a student for the outstanding poster presentation at the Society's annual meeting.

The 1998 winner of the E. Lucy Braun Award is Kara L. Webster for her poster, "The population dynamics of limber pine (*Pinus flexilis*) in the

southern Canadian Rocky Mountains," based on her current master's degree research at the University of Calgary under the supervision of Edward Johnson. Kara received her bachelor's degree from the University of Guelph.
